SUMMARY

Software Engineer with experience in building production full-stack applications and AI/LLM-powered systems, including RAG pipelines, CRM platforms, and API-driven backends. Comfortable and flexible with the choice of tech-stack with a strong focus on design and shipping real-world products.

SKILLS

Languages	Java, Python, JavaScript, TypeScript, C++
Backend & Database	Node.js, Express.js, FastAPI, REST APIs, PostgreSQL, MongoDB, Redis
Frontend	React, Next.js, Tailwind CSS, Zustand, Figma
AI / LLM	AI Agents, LLM APIs, RAG, Context Engineering,
DevOps & Tools	Docker, Kubernetes, GitHub Actions, Nginx, Linux, Git, Postman

EXPERIENCE

Freelance Web Developer Apr 2024 – Present
Self-Employed Remote

- Delivered production web applications, internal tools, and e-commerce platforms for clients across India and internationally, owning tech architecture, development, and deployment end-to-end.
- Built Shopify e-commerce stores for educational toys, games and jewellery brands using Liquid theme development, app integrations, and Shopify CLI-based workflows.

Incubr Tech Pvt. Ltd. Jan 2026 – May 2026
Software Developer Delhi, India

- Led a team of developers and designers to ship Ethi, a clinic and patient management CRM. Owned backend architecture and production deployment.
- Developed additional consumer-facing web interfaces and an internal workplace management application.

FOSS United Dehradun Sep 2024 – Nov 2025
Core Team Dehradun, India

- Authored technical content and organized developer meetups to promote free and open-source software adoption in the local developer community.

PROJECTS

Musigo — AI Music Discovery Platform 2025 – Active
FastAPI, LangChain, ChromaDB, RAG

- Built an AI-powered music discovery platform that converts natural-language prompts into personalized recommendations using semantic retrieval and LLM-driven workflows.
- Implemented a RAG pipeline with LangChain and ChromaDB for vector search, served through a FastAPI backend.

HealthySwap — AI Meal Transformation Platform 2026 – Active
React, Gemini API, PostgreSQL, Zustand

- Built a full-stack application that analyzes meals and suggests healthier alternatives, including ingredient swaps, cooking method upgrades, and side-by-side nutritional comparisons.
- Implemented client-side state management with Zustand on a PostgreSQL-backed architecture, powered by Gemini API for meal analysis and recommendation generation.

Ethi CRM 2026 – Active
PostgreSQL, Railway, Redis, PubMed API

- Developed a clinic and patient management CRM handling medical feeds, nutritionist workflows, and patient records for production healthcare users.
- Integrated the PubMed API for medical reference data with a Redis caching layer on a PostgreSQL-backed, Railway-deployed architecture.

EDUCATION

DIT University, Dehradun 2022 – 2026
B.Tech, Computer Science
